Georgii Angeni

t.me/geaned   angenispb@mail.ru   github.com/geaned

Education

Saint-Petersburg State University – SPbU	Sep. 2023 – Present (exp. Jun. 2025)
Master of Software Development & Data Science	*Saint-Petersburg, Russia*
Saint-Petersburg State University – SPbU	Sep. 2019 – Jun. 2023
Bachelor of Mathematics, Algorithms & Data Analysis	*Saint-Petersburg, Russia*

Work Experience

Yandex — Jun. 2023 – Present
ML-Developer (Middle) — *Saint-Petersburg, Russia*

Trained a number of ranking models used for the arrangment of images returned to a query by the search engine and conducted various experiments in order to estimate improvements from implementing these models. Developed multiple features used as data for models to be trained on.

OK.ru (Business Unit of VK) — Jun. 2022 – Sep. 2022
ML-Developer (Intern) — *Saint-Petersburg, Russia*

Trained a number of models used for automated tagging of gifts (small images that can be sent as messages): an object detection model for detecting the most frequent items and text detection and recognition models for finding possible text labels.

Other Experience

Jet Infosystems Project — Feb. 2022 – May 2022
Data Scientist, Developer — *GitHub link*

A pipeline for detecting and recognizing serial numbers on images containing a number of faces of metal rods. Trained rod detection and digit recognition models and assembled the final pipeline.

Extracurricular

English Proficiency: C2 Level (Passed Cambridge Advanced English Exam with Grade A)

Achievements

National ITMO University Olympiad in Informational Technologies — 2018
Winner

Technical Skills, Language Skills, and Interests

Programming Languages: Python, C/C++, Go. Familiar with Kotlin, Java, JavaScript, Ruby

Languages: Russian (native), English (fluent), French (elementary)

Primary Interests: Deep Learning & ML-Engineering

Other Interests: Software Development & Databases
