Georgiy Angeni

t.me/jora_angg   angenispb@mail.ru   github.com/geaned

Education

Saint-Petersburg State University – SPbSU   Sep. 2019 – Present (exp. Jun. 2023)
Bachelor of Mathematics, Algorithms and Data Analysis   *Saint-Petersburg, Russia*

In particular, completed courses in Bayesian Inference & Deep Learning by Sergey Nikolenko.

Physics and Mathematics Lyceum №244   Sep. 2008 – May 2019
GPA: 5 out of 5   *Saint-Petersburg, Russia*

Work Experience

OK.ru (Business Unit of VK)   Jun. 2022 – Sep. 2022
Data Scientist (Intern)   *Saint-Petersburg, Russia*

Trained a number of models used for automated tagging of gifts (small images that can be used while messaging): an object detection model for detecting the most frequent items and text detection and recognition models for finding possible text labels.

Other Experience

Jet Infosystems Project   Feb. 2022 – May 2022
Data Scientist, Developer   *GitHub link*

A pipeline for detecting and recognizing serial numbers on images containing a number of faces of metal rods. Trained rod detection and digit recognition models and assembled the final pipeline.

Android Backend Project   Sep. 2021 – Dec. 2021
Developer   *GitHub link*

A backend developed using Ruby on Rails for Android applications, that are built at the "Mobile Development" course at the Math and Computer Science faculty of SPbSU. It provides authorization via JWT, post and user search and post pagination.

Extracurricular

English Proficiency: C2 Level (Passed Cambridge Advanced English Exam with Grade A)

Achievements

National ITMO Olympiad in Informational Technologies   2018
Winner

Technical Skills, Language Skills, and Interests

Programming Languages: Python, C/C++, Go. Familiar with Kotlin, Java, JavaScript, Ruby

Languages: Russian (native), English (fluent), French (elementary)

Primary Interests: Machine Learning & Statistics, Software Development

Other Interests: Game Development, Web-development
